

Primary Science Remote Network

Ofsted's recently published "Research Review Series: Science" suggests that:

"Expecting teachers to pick up subject knowledge through time spent teaching is misguided. It is therefore important that teachers have access to high-quality subject-specific CPD. This needs to be focused on the content and how to teach it, as opposed to generic pedagogies and so should be aligned with the curriculum that teachers teach."

This remote delivered CPD programme combines subject leader training with high quality subject knowledge CPD for primary teachers in the three key areas of science - Biology, Chemistry and Physics.

Subject leaders sessions with Kate Redhead

Thursday 16th September 2021, 16:00-17:30

Delivering the primary science curriculum in a post pandemic world

Thursday 27th January 2022, 16:00-17:30

Leading primary science in a post pandemic world

July 2022 date and content TBA

Working Scientifically subject knowledge sessions

Chemistry Subject knowledge – **Wednesday 19th January 2022 16:00 –17:30**

Physics Subject knowledge - **Thursday 3rd March 2022, 16:00-17:30**

Biology subject knowledge— **TBC**

All of these courses are priced at £30 per course, if you'd like to book on to all of these courses, you can book on to our **Primary Science Remote Subscription Package for £150. This is for a whole school subscription which makes it excellent value for money.** To do this please email Sue Hawley

What are you looking for?

PROFESSIONAL DEVELOPMENT

We offer high-impact professional development across the UK, and online, based on the latest developments in both pedagogy and STEM subjects. We can also tailor professional development to your school's specific needs with our bespoke CPD.

CAREERS EDUCATION

As well as a host of excellent resources on our website including the Careers Toolkit, we also run the STEM Insight programme to give you a unique experience in industry or university through inspiring placements.

INSPIRATION

We've got a host of ways to help you inspire your students: why not bring a STEM Ambassador into your school to talk about STEM subjects and careers, or start a STEM Club to build confidence and teamwork skills?

COMMUNITY

Share your ideas and challenges with teachers and technicians through our online groups and at our networking events. And join us on Twitter - we have over 20,000 like-minded educators following us.

National STEM Learning
Centre and Network

RECOGNITION

Our recognition schemes and awards allow you, your department and school to showcase the impact you have on your students and colleagues.

RESOURCES

We have over 38,000 quality, STEM teaching resources, available online or at our centre. You can also browse teacher-made resources and submit your own.

STEM Learning operates the National STEM Learning Centre and Network, alongside other projects supporting STEM education
